

Webador privacy statement

Webador's online service includes the processing of personal and privacy-sensitive data. Webador attaches great importance to the proper handling of personal data and thus processes and secures such data with due care and attention.

If you have any questions, or you'd like more information regarding which data we store, please feel free to contact us.

Special and/or sensitive personal data that we process

Our website and/or service does not intend to collect data from website visitors under the age of 16, unless those visitors have permission from a parent or guardian. However, as we have no way of verifying a visitor's age, we encourage parents to take an active interest in their children's online activities to prevent the unauthorized collection of a minor's personal data. If you believe we have collected a minor's personal data without permission, please reach out to us via our [contact form](#) and we will delete the relevant information.

Cookies

Our online service uses functional, analytical, and tracking cookies. Cookies are small files in which we store information so that you don't have to re-enter it every time you access our service. Please note that our use of cookies also means we are aware of every time you visit our website.

We have agreements in place with other companies who place cookies. As Webador cannot control what those companies do with these cookies, we recommend reading their privacy statements.

You can disable cookie placement in your browser settings. However, this means you will no longer be able to log into our system. You can also delete all cookies placed by us or our partners via your browser settings. After logging in, our system will function correctly again.

Google Analytics

We use Google Analytics to track how visitors use our online service. We have entered into a processing agreement with Google that contains strict stipulations as to which data they can store. We allow Google to use the information obtained from Analytics for other Google services. This data is automatically deleted after 26 months.

Security

Personal data security is very important to us. We strive to maintain the security of your personal data, making adjustments where necessary and paying close attention to any risks. For example, our application uses a secure connection via Secure Socket Layer (SSL)

technology, indicated by the padlock symbol in your browser's address bar. We store backups at an external location. Our employees are explicitly instructed to maintain proper security on their electronic devices and to use secure login methods. We also carry out penetration tests to detect any vulnerabilities.

Changes to this privacy statement

In the event of any changes to our online service or to any relevant legislation, we must also adjust our privacy statement. We recommend making a note of the date at the top of the page and checking back regularly for updates. We will always endeavor to announce any important changes separately.

Your rights

If you have any questions, or you'd like more information regarding which data we store, please feel free to contact us using the contact information below.

You have the right to:

- an explanation of which personal data we have and what we do with it
- access the exact personal data we've stored
- correct errors
- remove outdated personal data
- right to be forgotten - Send us a message via the [contact form](#), and we'll delete all your personal data.
- withdraw permission
- object to a specific use

Make a complaint

If you believe we have failed to adequately assist you, you have the right to file a complaint with the regulator, the Dutch Data Protection Authority.
